# Portfolio summary

## Reporting currency: EUR

Period: 2026-08-01 to 2026-08-31
Valuation: 2026-08-31T12:00:00+00:00
Source cutoff: 2026-09-10T15:46:34+00:00
Account: f0f5c66e-b128-59b2-a620-83bc8faa4a57
Snapshot: de02ea1a-64d9-51fb-a48e-c1069737dd9a
All financial values are copied from pinned canonical results. Missing and partial values retain their stated reasons and bounds.

## Snapshot totals

State: available; canonical rows: 1

**Record: snapshot.totals**

Snapshot id: de02ea1a-64d9-51fb-a48e-c1069737dd9a
Valuation at: 2026-08-31T12:00:00Z
Source cutoff at: 2026-08-31T12:00:00Z
Total: 248431.27 EUR
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Cash: 12431.27 EUR
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Invested: 236000 EUR
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Net contributions: 230000 EUR
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Dividends received: Unavailable (snapshot.totals.dividends_received.reason)
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Realized profit loss: Unavailable (snapshot.totals.realized_profit_loss.reason)
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Unrealized profit loss: Unavailable (snapshot.totals.unrealized_profit_loss.reason)
Quality: stale; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot
Default row context: context.snapshot

## Positions

State: available; canonical rows: 1

**Record: position.933f2e54-9403-4b37-9701-5a670b78343f**

Position id: 933f2e54-9403-4b37-9701-5a670b78343f
Instrument id: fed6114f-869c-5259-9833-4ba9014b3a21
Listing id: 750217ef-70f4-5e03-b2c8-65f94dd84a81
Ticker: SYNEQ
Name: Synthetic Global Equity
Instrument type: equity
Quantity: 400

Quality: stale; Origin: observed_provider; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Trading currency: EUR

Current price: Unavailable (position.933f2e54-9403-4b37-9701-5a670b78343f.price.reason)

Quality: stale; Origin: observed_provider; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Market value: 236000 EUR

Quality: stale; Origin: observed_provider; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Provider cost basis: 217568.73 EUR

Quality: stale; Origin: observed_provider; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: phase1-core-accounting/1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Provider unrealized profit loss: 18431.27 EUR

Quality: stale; Origin: observed_provider; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: phase1-core-accounting/1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Direct weight: 0.94996092883154363

Quality: stale; Origin: derived_deterministic; Coverage key: coverage.snapshot; Method key: portfolio_snapshot; Method version: 1.0.0; Provenance set key: sources.snapshot; Note set key: notes.snapshot

Default row context: context.snapshot

## Allocation buckets

State: available; canonical rows: 2

**Record: allocation.position.933f2e54-9403-4b37-9701-5a670b78343f**

Dimension: direct

Bucket key: 750217ef-70f4-5e03-b2c8-65f94dd84a81

Name: Synthetic Global Equity

Value: 236000 EUR

## Reading and reuse

This PDF provides selectable Unicode text, headings, bookmarks and a logical reading order. It is not certified PDF/UA or a fully tagged PDF. Structured JSON, CSV and XLSX preserve the canonical records and explicit states.
The activity records support accounting review. They do not assign tax treatment or provide tax advice. Manual contribution proposals cannot execute broker transactions.
